Canadian Pacific Crop Report very Satisfactory

Winnipeg, Aug. 29th.—During the past week grain cutting has proceeded without interruption throughout Manitoba, since the weekly crop of the Agricultural Department of the Canadian Pacific Railway, issued this morning. The present estimate is from seventy-five to eighty-five per cent of coarse grain are in. Wheat crop looks better than the average early to give much information on yield. No shortage appears to have been done by the rains of the past week, and there are no reports of sprouting in the stocks. Harvest help is scarce and in some instances five dollars per day is offered. One thousand additional men are expected absorbed.

GOLF

The following is the draw for the qualifying round for the Championship Cup and Consolation Medal, to be played on Wednesday, September 8th. (Stroke Play).
Mrs. Chamberlain with Miss Gibson.
Mrs. Patrick with Miss Brown.
Mrs. McPherson with Mrs. Van T. W.
Mrs. Pierson with Mrs. Whitehead.
Mrs. Lydell with Mrs. Wright.
Mrs. Burt with Mrs. Watson.
Miss Boring with Miss Garrett.
Mrs. Hutch with Miss Gray.
Mrs. Stockton with Mrs. Hilde.
Mrs. Sorenson with Mrs. Bjorle.

Sea-breeze—Some interruption has occurred in the northern part of the province due to rain, but of short duration. In the southern part cutting has advanced to fifty to seventy-five per cent. The least progress is in the northwest part taking in Maclean, Crinkie and Redford Subdivisions. Warm and dry weather is now needed. No special crop damage has occurred from rust or hail although some from frost. An electrical storm in the Saskatoon District on the 6th caused the heavy crops to lodge badly. Threshing will start this week. Harvest help scarce. Pasture and livestock generally in good condition.

Alberta—With few exceptions weather in Alberta the past week has been of the best and harvesting has made good progress. In the south as a whole from fifty to sixty per cent of cutting is completed. In the north from twenty to thirty per cent. Rain earlier in the month helped wheat to fill and added considerably to the yield besides benefitting oats and barley. If weather conditions continue favorable indications are for better than an average yield. A small amount of threshing has been done showing good yields and grade. Shortage of help is anticipated.

E. D. and B. C. Ry.—Harvesting is quite well advanced in this section and under generally favorable weather conditions. About fifty to seventy per cent of wheat and twenty-five to thirty-five percent of other grains are cut. Crop is the largest in the history of this section, and no reported shortage of help. A large amount of new land has been broken for the next year crop.

British Columbia—Rains of the past week and since have effected a change for the better in the conditions. In many districts of the Okanagan trees were so dry that apples were ready to drop. The rain has restored normal conditions and will improve the quality of apples. Early apples, plums and early pears about cleaned up. Bartlett pears and wealthy and Gravenstein apples now moving in considerable volume.
J. E. MARCH

Ye Olde English Faire

A very pretty setting and enjoyable evening was arranged by the Vestry of St. Michaels and all Angels church, held last Wednesday on the grounds of G. H. Patrick, Esq. who acted as host.
Games of skill were there, prizes for the maiden and her brother.
A delicious supper served on pretty flower-decked tables provided by Mr. Freeman, was by no means the smallest feature of the attraction.
Later under the lure of twinkling lights of the new electric system, strung on wires throughout the

Death of Mrs. Dave Dewitt

The death of Mrs. Dave Dewitt occurred on Wednesday afternoon. She had been in poor health for some time, but only a few days ago was it thought necessary to have medical aid. The funeral has not yet been arranged, awaiting word from an adopted daughter who resides in Chicago, who is expected will be able to come.
The funeral will be conducted by W. C. Chase, local undertaker, and will probably be held on Monday.

The Death of William J. Anderson

The funeral services for the late William John Anderson, one of Langdon's most popular young men, was held Wednesday afternoon at the funeral home of Foster and Foster, conducted by Rev. T. J. Bennett, assisted by Rev. A. D. McDonald.
Two beautiful hymns, "Lead Kindly Light," and "Safe in the Arms of Jesus" were sung, led by Captain H. S. Hinton. The entire district of Langdon was represented, the funeral cortege being several blocks in length, a special flower car being necessary to carry the floral tributes to the grave.
Mr. Anderson had lived in the district for the last 11 years and had endeared himself to all who became acquainted with him. He is survived by his widow and one child; his father David Anderson, of Calgary also sister, Mrs. Hodge, of Granum; two brothers, Oswald and Archie at Drumheller. He was a member of the Langdon L.O.O.F. local, and was an enthusiastic athlete.

The New Meat Market

Fred A. Cott who recently purchased property on 2nd Street from the town and erected a new brick building, was expected to open the meat business, will open his new store on Saturday next.
Mr. Cott was formerly engaged in the same business and sold out, returning to England, where he expected to live and die in peace and prosperity. However the lure of Western Canada was too much and he simply had to return to Canada and in doing so he again came back to his first love—Strathmore.

Following is a list of the floral tributes: The family, the Anderson family, Uncle William, Aunt Emma and family, Hugh, Bella and family, Blackie cousins, Aunt Maggie and family, Uncle Rob, Aunt James and Aunt Mabel, the Langdon Local L.O.O.F. and Mrs. Gray and family, Health Baptist church, Langdon Hockey Club, Mr. and Mrs. Cooper, Bill and Gladys, Miss Walker (Dalemead), Clara Rebekah lodge (Langdon), freight about employees, Mr. and Mrs. O. Borstori, C. E. and L. Graham, Langdon W. L. the Grays, the Bishops the Stocktons, Brook and Mayr, Mr. and Mrs. O. MacWilliams (Blackie) Mr. and Mrs. C. M. Ross, Mr. and Mrs. A. Heckle, Mr. and Mrs. E. Lee Moore, Mr. and Mrs. H. C. Wilson, Ray and John Wilson, Ethel M. Foster, Mr. and Mrs. M. S. Heck, and family, Mr. and Mrs. Keneghan and family, Mr. and Mrs. Ash, Mr. and Mrs. James Tamer, Mr. and Mrs. Lester Anderson, Mr. and Mrs. Louis Bennett, Mr. and Mrs. Ed. Hilder, Mr. and Mrs. W. H. Moore, Mr. and Mrs. Dick Welch, Mr. and Mrs. Dave Welch, Mr. and Mrs. C. A. Craig, Mr. and Mrs. William Clayton, Mr. and Mrs. A. T. Bishop, Mr. and Mrs. L. Griffin, Miss Frances Woodell, Joe Campbell, Jack Batts.

CRICKET

Yorkshires revenged their previous defeat by securing a victory over Strathmore. Strathmore made 36, and the Tykes, with six wickets in hand, registered 42. Jack Stewart had perfect length and accounted for six of the country batsmen for a total of 13 runs.

ARE YOU A CORPSE

The man who complains most at the preacher says the least; the man who runs down his town does the least to build it up; the man who does not take his home paper does the least to make the paper a success; he says the town is no good and that it is dead. But he is mistaken—he is the corpse.

The remains were laid to rest in the Burialland cemetery, Langdon Local L.O.O.F. taking charge of the services at the graveside.

Fallbears were W. C. Winter, W. Smith, R. Griffin, J. B. McIntyre, H. Jesse and A. Brander.

LANGDON

Mrs. G. Whitney and children were visitors at the Dick home near Carletonland several days last week.
O. Craigie of Olive, Alta. and Miss W. Hunter of Beddington, Alta., both former teachers in the Langdon school were visitors at the home of E. Mae, Wednesday.
Mr. and Mrs. H. Metson of Thre Hills spent a few days at the R. Trillie home last week.

Langdon school will open Wednesday with Mr. B. Thomas again the Principal, while Miss Shantz of Calgary, will teach the primary grades.

Miss Jeanette McIntyre left on Saturday for Staveland, Alta., where she will teach.

Miss Nellie Barron will teach at Altona, Alberta. Alice Dean will teach at Norton school, and Miss J. Rae the Winters school at Indian

A. C. Scratch held a Splendid Meeting

On Tuesday night Mr. A. C. Scratch held a splendid meeting in the Memorial hall, although the weather was very bad there was a large audience and both he and Mr. A. MacGillivray were given a very cordial hearing. Mr. MacGillivray was delayed reaching the hall until late, however, when he did arrive the audience were willing to remain and the meeting did not conclude until after midnight. There was a little heckling but most of it was very good natured. Mr. Scratch got when he had refused to be a candidate over than that of an independent and that he had been endorsed by the Conservatives.
Mr. Scratch said that he has been interested in matters pertaining to the municipalities in the province of Alberta for over twenty years. I have consistently, during that period, fought for the Natural Resources of our province. I have also been endeavoring to assist materially concerning the finances of our province by influencing the legislation which brought into being our Tax Recovery Act. A member of one council in our province told me very recently that they have a "sinking fund" of \$150,000, obtained solely from the sale of lands in that municipality. This \$150,000, under the original Tax Recovery Act, would have gone to speculators in eastern Canada and the United States. I was directly and indirectly the means of saving the Standard go into every one of three municipalities. This, believe, was a good thing for the people, giving them a medium of advertising and exchange, such as which no other community, that I know of, in Western Canada, enjoy. In the Municipal District of Keoma, where I have been revere for four years, I have been, with the assistance of my council, reducing taxation to the extent which is not paralleled in any other municipality in the province of Alberta. We have, in many ways been the leading municipality during the last few years, one of which is the road-building equipment which we now are operating, being the best road-building outfit in the province of Alberta. These things commensurate with many other activities in the U.P.A. organization, I believe, has meant much to the people of this province. It has been intimated in the Standard that I had no policy. Without wishing to take up any more time than possible, I will briefly here state what my policy is.
1st. "The delivering of the Natural Resources of the province of Alberta to its rightful owners without any interference from any outside sources as to how we shall use or develop these resources."
2nd. "The initiating of legislation which will, from a Dominion standpoint, assist all cooperative movements in the way of obtaining what markets for our farm products."
3rd. "The obtaining of a market for Alberta wool."

This I believe is absolutely necessary for the best interests of this province as a whole and ways and means must be found for obtaining that market.
4th. "The Tariff." It has been stated that I stand for high tariff, especially on agricultural implements. Before going any farther, let me give a flat contradiction to any statement of that nature. I am not a free trader, knowing, as every one should know, that, as far as Canada is concerned, it is an absolute impossibility. This statement has been verified by I stand for high tariff, especially on agricultural implements. Before going any farther, let me give a flat contradiction to any statement of that nature. I am not a free trader, knowing, as every one should know, that, as far as Canada is concerned, it is an absolute impossibility. This statement has been verified by I stand for high tariff, especially on agricultural implements. Before going any farther, let me give a flat contradiction to any statement of that nature. FRANK MILLER, Proprietor

SEND
GARLAND
BACK
TO
OTTAWA

Garland is recognized today as one of the outstanding men in the House of Commons.

He has won his spurs as a champion of the people against the centralized financial interests that flummox and control both old political parties.

Published by Bow River Consolidated U.P.A. Association, Calgary.

Patronage Dividend Payment

One Cent Per Bushel

A Patronage Dividend of one cent per bushel is being paid on street grain purchased by United Grain Growers Limited during the past crop year.

Holders of patronage dividend receipts should present them to be cashed at elevator where street grain was delivered.

UNITED GRAIN GROWERS LTD

"Frank" said the land mother, "Isn't it rather extravagant to eat both butter and jam on your bread at the same time?"

"Oh, no mother," replied Frank. "Dad says it is economy. It says this same piece of bread does for both."

Mrs. Blank: "And how is your husband this morning?"

Patience's wife: "Oh, very poorly. He's got such an expensive disease. Dr. Moore says he must be kept in good spirits."

"Bill" Tierney says that he received a clothesline dispatch from Arn-

rior that Hon. Arthur Meighen is going to depend on Mr. Bow Rogers, Dr. Will Foster, Gardiner of Carlton, Hanson and Jones of N.B. potato fame to clear up the customs scandal.

HEAT ON THE STREET

The car was going along at a great speed, with available Tate signalled to the girl driver to stop. "Sorry miss," he said, "I'm afraid I shall have to report you for driving at sixty miles an hour."

"Don't be silly," she retorted. "How could I—I've only been going a few minutes."

Telephone Operator—Should I notify a man who lies to me?

Gipsy—My dear girl, do you want to be an old maid?

Harold Smith says: "He is fully convinced that before taking the leap through the wedding ring a man should be sure that the net of matrimonial bliss is properly stretched on the other side."

"Bill" Tierney who has always had the reputation of being a good tailor has branched out as a tree specialist. Recently some miscreants cut down one of the trees in the park to such an extent that it was in imminent danger of being destroyed. Tierney, who is now known as the "Professor" undertook to give the tree a treatment using a specific only known to the experienced woodmen of the famous Argyll lumber district. He engaged as his assistants Frank Miller and Percy Parish and under his efficient direction the tree was given the treatment and carefully nurtured. The "Professor" states that he had only had to prescribe but that he had compelled to do most of the work. The assistants dispute the Professor's state-

Pete's friend, who remarks that a friend of his named Cohen was so badly scared that he lost his speech.

"Yes," said Cohen. "Both his arms were broken."

A young clergyman gave out the following church notices:

"On Thursday, God will be sending there will be a mother's meeting at 5 p.m."

"On Friday, God will be sending the weather predicting, we will have a church convective meeting at 7 p.m."

"On Saturday, in any case, there will be the usual choir practice at 6 p.m."

"Do you like 'Lithium,' Helen?"

"Oh, George, why not so small?"

Lady passenger—Mr. T, I hope there won't be any 'Lithium'.

Agent Perry—"Oh, no, mum."

Lady passenger—"I want you to tell the conductor to be very careful I've got two dozen eggs in this basket."

Two men met on the street two or three days after not having seen each other for some time. "Why hello, Jack Taylor. I'm sure glad to see you," said the first. "Not so present my wife is."

"Nothing doing," replied Jack. "I've got one of my own, spoken for, thanks."

John says: Women are naturally footsies; they are more afraid of mice than they are of men.

Little Mary was not permitted to go to a funeral. Later she explained to a caller she had never attended a funeral, and as she would not know how to act she did not care to know about not being able to go. "It's better wait and practice on someone in our own family first," she confided.

Ann Martha (shopping for a parcel)—Now can you assure me it isn't yours, in the act of shooting him down? Where did you get it? Proprietor—From a sailor man, but Ann Martha—"Oh, that's all right—just as you didn't get it from one of those flappers."

An old Scotch woman said to her pastor one day:

"Dear me, meisters! mak' muckle aise about their hard work. But what's two bits of sermons in the week for me mak' up? I cut aise it in those flappers."

Wend, Janet, said the minister, "I'll hear you."

Come away with a text, then, quoth she.

He repeated with emphasis: "It is better to dwell in the corner of the house than with a brazen woman and in a wide house."

Janet fired up instantly.

"What's that ye say sir? Due ye intend anything personal?"

"Stop, stop!" broke in the pastor. "You wad never dare for a meisters!"

"Ye short for no?" asked she sharply.

"Because, Janet, you come over soon to see the application!"

"If an Aberdonian gives a shilling.

to the Wop, what is it?"

Kenny McLeish—"Dad."

Jim Wop—"Look here, Willie Wop, I only had a portion of trout, and here I'm charged for the whole fish!"

Willie Wop—"Sorry, sir, but it's the custom of the establishment."

Jim Wop—"Oh, well, it's a good job I didn't order beefsteak."

Agnes and Alice were up at Basil.

"Nice chap he is to take a girl for a row!" said Agnes.

"Why? What did he do?" asked Alice.

"Nothing—just rowed!"

Epitaph—"You say this hair restles to very good, do you?"

Rev. Mr. M.—"Yes, sir, I know a man who took the cork out of a bottle of this size, and he's better, and the next day he had a 'comestache'."

A boy had obtained a job—his first—and was looking at the amount of work to do.

"I get up at half past five and have my breakfast," he said.

"Anyone else get in at five?" he was asked.

"Oh, yes Mother gets my breakfast, and then she gets out a half-past six."

"And your dinner?"

"Oh, mother gets that, too, and then she gets father's breakfast."

"Till she the afternoon to herself?"

"Oh, no! She cleans up, looks after the children, and gets tea for dad and me when we come home. Then we read the newspaper and go to bed."

"And your mother?"

"Well, she does a bit of sewing when, when all is cleaned up after tea."

"What wages do you get?"

"Oh, I get ten dollars a week, and that's a fair price."

"And your mother?"

"Mother? Oh, she don't get wages. She don't do no work."

Strathmore young man (about to take girl for row in doublebacking boat). "I say, you know, what if the daily thing stinks?"

Boatman: "In that case, sir, you forfeit your deposit."

"This is becoming a dreadfully hot world," said Bill Tierney. "So, this Sunday afternoon, from where I'm standing, I can see through a number of boys playing baseball."

"Please, sir," said a boy, "can you see who's winning?"

"You have heard of," the last witness said, "prevented me from your evidence is to the contrary. Am I to infer that you wish to throw doubt on her veracity?"

"The police young man wanted a repeating hand."

"Not at all," he replied. "I merely wish to make it clear what a flat it is, after speaking the truth."

B. Tierney says that: A modest girl is a girl that attracts attention, but a girl can feel comfortable when she's sitting down.

Constable—Hey, there, don't jump up there! Why don't you use your nose? Answer Young Thing—"I didn't know the car had one."

"Pete" Teller said that when he was in the army he and Jack Taylor were on duty. A girl invited Jack to spend a couple of days with some of his London friends. Jack, overjoyed, his welcome. His host said he had a hint from the "dread result."

"Don't you think," he said, "that you should be a little more careful in your choice of friends?"

"Man," replied Jack, "I believe you're right. It's a shame that matters were he did. Fortunately they could not come or said Pete I would have been in an awful fix. It was bad enough as it was."

Mrs. O'Brien: "Have you any answer to Mrs. Kelly?"

And "Pete's" ancestors, Mrs. O'Brien: "Why people you're sprung from Mrs. Kelly."

"Hello to you, Mrs. O'Brien, I come from the shock of Tierney's army, that sprung from nobody—they spring at them."

Edney, town assessor asks for a true translation of the following: "Thou never lep, or stent, or brat."

But just step a wee bit hasten. Thou snort awa."

This is Scotch—there isn't any free translation.

Teacher—"Children, what is the most dangerous part of an automobile?"

Children—"The driver."

Every Woman Deserves One

The SMP Roaster is a fine time saver. You put the meat, bones, roots to perfection. It roasts with very little shrinkage, thus saving dollars every year. None of the dairy roasters are hot; all the rich flavor is retained. Besides you can buy cheaper cuts, for it makes cheap cuts taste like choice ones.

The close fitting cover keeps all the cooking heat and grease inside the roaster. The meat is kept sweet and clean. After it is done out in a jiffy after the cooking is over. It is made of the best material. Sold in all hardware stores.

Proves Every Statement

No claim or statement is made that the NEW STAR Car cannot break up by actual proof, in road performance.

The claim to MORE POWER and GREATER ECONOMY is amply proven by the NEW STAR's famous Continental Red Seal Motor—GREATER COMFORT, by the long springs, low centre of gravity and deep, resilient cushions—GREATER BEAUTY, by the low, graceful lines of the Duco-finished bodies—HIGHER QUALITY, by the many fine features found alone in NEW STAR among cars in its price class.

The NEW STAR is Supreme in the Low Cost Field

Notices of entertainments, meetings, sales, etc., at which admission is charged, articles sold, or a collection taken, with the exception of actual church services, will be charged for at regular advertising rates.

THE COUNTRY TOWN AND ITS CONSUMING POPULATION

By C. W. Peterson

With comparatively few exceptions, the country towns of Canada have been going down hill or barely hold their own during recent years. Various causes have been ascribed to this disturbing phenomenon: chiefly improved highways and the general use by farmers of automobiles, which enable them periodically to do their trading, and incidentally, indulge in recreation, in the cities; lines cutting off an enormous volume of business which has hitherto been used to support the smaller centres. The increased mechanization of the farm has also greatly reduced the volume of farm labor employed and, consequently, the consuming population tributary to the country town. Rural mail delivery has largely cut out the visit to the post office and so forth.

But new possibilities are opening up for the smaller centres. It is a fundamental fact that our civilization passes through crises and, automatically almost, out of them again. Every spell of depression in human affairs is but the winter period which precedes the dawn of spring! While old kinds of business have disappeared, new kinds of business have appeared in the towns. There are the sales agencies for automobiles and trucks. Every town has them. The man in charge is related also to thousands of others like him in a wonderful system of salesmanship in a line which was absolutely unknown in the towns twenty years ago. Farm mechanization has also led to larger and better implement houses, tractor agencies and filling stations.

The towns are also organized better than they used to be, to ship out their products. Here's a place of clusters, hundreds of people, where they have established a big poultry and egg-shipping centre. A modern building, properly arranged and ventilated, with well equipped office rooms, a good warehouse, ample side track from the main line of the railroad. Car loads of poultry shipped direct to the cities. Can you beat it? Who says that the town is not coming back.

The farmers are shipping the cream out from the towns, through local agencies, and getting cream checks for it every week—real cash money from the outside world—cash which they check at the local banks and spending a lot of money with the local merchants.

It's true, there was a time when city high schools lured the young people away from the towns. But during the past decade the towns have erected their own high school buildings. As one travels across Canada, he is impressed with the fact that towns everywhere have gone into the high school business. The high school folks are living at home and going to school. That is making a new social life in the town, such as has not been known previously.

From the cities they are doing some things that are helping the towns to return. Certain railroad companies are moving their repair shops from big city centres out to small division points. It saves overhead cost, minimizes the risk of loss, troubles, and scatters service stations for repair work.

In the east, there's a notable tendency to scatter industrial plants. This has become so marked that an organization in the United States has recently made surveys and published the results, of the influence of the industries upon the rural areas through which they have been scattered. In a journal published for factory executives, there recently appeared a series of articles entitled,

"Why We Moved to the Country" They told the personal experiences and impressions of men and women who have taken their industries out of the city centres into the small towns. At any rate, the towns are returning, and the prospects that have been croaking disaster are already getting old and settled.

But while the close observer is bound to conclude that a new era has dawned for the country towns, we cannot overlook the palpable fact, that the new development that awaits the rural centre is going to be slow and stepped steps are made towards augmenting Canada's almost stationary population through a vigorous immigration policy which would benefit town and country alike. Every citizen is interested in filling up our vacant agricultural spaces throughout the length and breadth of this enormous country in order that we may approach a proper balance between rural and urban population which is at present sadly out of proportion.

GIVE THE FIRE LADDIES GOOD SUPPORT

The Fire Brigade has now been fully reorganised under chief A. V. McFarland, with an able staff of assistants.

One of the first things to see about, is that the equipment is satisfactory and that it will measure up to the requirements of the under writers, in order that the town may obtain the lowest possible rate of insurance.

Unlike many other towns in Alberta, the fire fighters can rest assured of getting all assistance, within the limits of their financial resources from the members of the present Council each of whom fully realize the importance of saving money for the ratepayers, through obtaining the very best insurance classification.

A well organized fire department gives the whole-hearted support of the Council, will be able to render a most valuable service.

Strathmore is particularly fortunate in obtaining the services of an experienced fire fighter in Chief McFarland and he is to be congratulated in having such an enthusiastic corps of assistants. It is to be hoped that their active services will not be required for a long time, but keen sense of security has been expressed since the meeting of organization. Support the fire laddies.

CAN WE INTEREST THE YOUNGER BOYS

In the sporting arena of Strathmore there are a number of mighty fine shots among the adult class, some of whom stand very good chances of making the Olympic team. There is quite a zep in the development of the younger element and it is up to Strathmore to get busy and devise ways and means to develop some of the youngsters.

Probably trap shooting is too advanced and strenuous for the boys of 15 to 18 years of age, but a keen interest might be developed through the use of the air rifle. It is to be regretted that there has been no shooting at Calgary among the High School Cadets, many of whom are now among the leading and most promising shots in Canada.

Give the local boys a chance and make Strathmore so interesting for them that they will not one and all want to remain at home, rather than longing for the time when they can get away to the "far off hills which look so green."

Keep the boys employed and amused and you keep them out of mischief and mould them into good citizens.

Fall Millinery

Our first shipment of hats have arrived and opened up. Paris inspired models that will instantly appeal to discriminating women. Mothers we are featuring for this week good looking, serviceable school boots and shoes at remarkably low prices.

Our car of fruit is cleaned up which goes to prove that Strathmore knows fruit values when they see them.

SCHOOL OPENING PRESENTS OPPORTUNITY OF A LIFE TIME

Really, "till" and "whimic" have their forces marshaled for a new educational campaign. Pupils will go in to the classrooms, some of them for the first time but most of them to resume courses of study that have been interrupted by the summer vacation. Some will go back reluctantly, others will take up school work with perfunctory as one of the little annoyances of life and a few will take up the broken thread of culture with as much enthusiasm as could be expected under the circumstances. How wonderful a day it would be if all pupils could see it as they will see it in retrospect a few years hence when sentiment as well as the practical side of life will bring a realization of the full meaning of the words of the old song about "school days, school days, dear old golden rule days."

That is a song for the mature and it should have the effect of reminding them of the fourth R in education, responsibility. It is likely that few persons capable of such an argument do not feel they neglected their opportunities for education when they were going to school. Most of them, with blame themselves for what they have missed and they will be right. If they are wise they will say to themselves that they also will be responsible for a large part of what the children will miss if they are not awake to the extent that the return of school days involves them in the matter of duty.

The character of a child is formed by itself, its associates and its environment. Its deviations are the result of impulse, inclination and direction. The old saying: As the twig is bent the tree is inclined—holds good now and forever. The slightest causes have their effect on character and the accumulation of them, for good or bad, form an important sum in the life of any person. A boy doesn't become a rowdy or a hoodlum spontaneously but he develops so does a little savage become acceptable company for others except through training and reformation.

That is what constitutes the burden of responsibility of parents in school days. Too often they thank heaven for the end of vacation in the misbegotten idea that the school teachers will take their children in hand and make little gentlemen and ladies out of them without any assistance from the home. There is more to name work than just the preparation of lessons, and wise parents realize this. If more of them did they would be laying up a smaller quantity of future tears for themselves than many are doing.

A newly married Blainmore chap entered the kitchen where his new bride was removing pies from the oven. One pie was about eight inches long and twelve inches wide, at least. "Peggy dear, why on earth have you baked such a funny-shaped pie, and so long, too?" asked hubby. Peggy's reply was: "I could not buy any shorter piebush."

Lighthelm, Alberta—Wool ship-
ments to the end of July, according

ROCKYFORD

The Rockyford Ladies Club will hold their next meeting at the home of Mrs. Watton on September 9th.

Wheat cutting is nearly finished and this week it fair to see threshing in full swing. Already some threshing has been done by the utilities and a certain amount cut by combine harvesters, the yield will be about 25 to 30 bushels to the acre. Most of the grain is expected to grade No. 1 northern.

The rainfall for the month is over 3 inches and it is to be hoped that fine weather will at least last long enough now so that threshing can be quickly done and so avoid the delay and waste which was caused by the weather last fall.

Mr. A. Martin of the firm of T. Richardson and Son has been busy in the district during the past week.

The owners of the combine harvester or machines in the district are most enthusiastic about the work they are doing and next year will see more of these machines at work.

MOTORED FROM ONTARIO

Mr. and Mrs. McGuire and family arrived in Rockyford a few days ago from a motor trip from their old home in Owen Sound, Ontario. The trip was made in twelve days there being Mrs. McGuire's nephew, Mr. Tom Trimmer who accompanied them on their trip and assisted in driving the car. Twenty-seven hundred miles was covered in the trip.

On interview with our representative Mr. McGuire informs us that no trouble or delay whatever was experienced either in entering or leaving the United States and that the tourists were given every assistance and shown the utmost courtesy in every State and Province through which they passed and free auto camps were provided in practically every town and city along the main highways.

In the twelve hundred miles trip, rolled across the prairies there were no crops seen anywhere that could outclass those in the Rockyford district this year.

to the secretary of the Alberta Sheep Breeders' Ltd., reached 1,101,000 lbs. These figures are encouraging in that they represent wool consignments from upwards of 400 shippers, 100 of whom will open new accounts with the Canadian Cooperative this year. More farm flocks of from 100 to 200 head are in the country and producing wool for market, thereby adding to the number of clips available to the wool trade.

THE LABEL

on your paper indicates the date on which your subscription expires. If YOU are in arrears we would appreciate an immediate settlement.

Here and There

Vancouver—All passenger records for outgoing ships to the Orient from the Pacific Coast up to the middle of August were started when Canadian Pacific liner Empress of Russia sailed for Yokohama, August 15, with a passenger list of all classes of 517 in addition to many members of the diplomatic and government services returning after vacations.

Dewan Banadar Sir T. Vijayaravachakkar arrived recently from London on Canadian Pacific liner Montcalm at Montreal, en route to Toronto where he will open the National Exhibition at Toronto. The Knight with the lengthy name gets over the difficulty for Canadian lips by stating that it is quite proper to address him as "The Dewan." He may tour other Canadian cities on leaving Toronto.

Banff Springs—"The last time I visited Banff was over 30 years ago and the trip this year has been a most wonderful revelation," said Brigadier-General H. S. Birkett, of Montreal, who stayed at the Banff Springs Hotel on his return from a trip to Alaska. This coincides with the opinion of Morley Roberts, famous English novelist, who after a forty year absence from the West, took part in the last Trail Riders Expedition early in August.

Calgary. This city had an exciting moment recently when the Most Honorable the Marquis of Salisbury, leader of the British Conservative party in the House of Lords was made an Indian Chief of the Sarcee and the name of "Eagle Plume." The ceremony was conducted with all solemnity. His Lordship kneeling on a blanket to receive the honor and long at the same time presented with a handsome broad buckskin vest and gloves.

Beating the train to the crossing is always a risk in favor of the train but when motorist has his car and waits until an engine is almost alongside him before he tries to get over, the risk becomes an absolute certainty—against the motorist. This was the case recently in Toronto where a car was signalled to stop by the watchman at a crossing, obeyed the signal, and then decided he would still try and get over. Fortunately there were no injuries and the only sufferer was the automobile.

Pictures of Gertrude Ederle's swimming of the English Channel were sent aboard Canadian Pacific liner Empress of Scotland at the last minute at Southampton and then passed to a waterplane near Anticosti and by it delivered to airplanes at Rimouski, thus beating other pictures speeding to New York on ocean liners by a full twenty-four hours. This is regarded as one of the cleverest and speediest methods of reaching this continent from Great Britain that has ever been successfully accomplished.

Members of the Empire Parliamentary Association, numbering twenty-one delegates from the Parliaments of the United Kingdom and the Irish Free State arrived in Canada recently on board Canadian Pacific liner Empress of Scotland. They travelled across the Dominion from Quebec to Vancouver, stopping en route at Montreal, Ottawa, Toronto, Winnipeg and Vancouver. They sailed by S.S. Arrango from Vancouver, August 25 for Sydney, Australia, where they will attend the Association Conference to be held in September and October.

SILVER FOX BUSINESS GROWING IN CANADA

Summerside, P. E. I.—Some idea of the growth of the silver fox industry in Canada may be gathered from the expansion of the Canadian National Silver Fox Breeders' Association. In 1921 the first year of registration, the Association had a membership of 109 and 805 pedigrees recorded. In 1922, 288 members were on the list and 6,087 pedigrees registered. By 1924, the number of members had increased to 927 and pedigrees to 8,345. Last year there were 2,528 members in the Association and 36,300 registered pedigrees. The membership is now over 3,100.

CARSELAND

The Rev. Percy Johnson will preach at Arrowwood in the morning, and at Glendon in the United Church in the evening on Sept. 5th.

The first four cars of grain to be shipped on the Arrowwood branch, left Queenstown on Friday, August 27th.

Threshing was in full swing in the Queenstown, Mito and Leduc-McGregor districts on August 27th.

The basement of the New United Church at Mito, has been finished and will be used for public worship, was dedicated on Sunday, August 29. The Rev. Thomas Powell, missionary superintendent of the United Church in Alberta, was the preacher for the day. The Rev. F. C. Miller, a student supply, sent on the field from Toronto, has won the favour of the people, and did splendid work during the summer.

The basement is to be used as a school, until the new schoolhouse is ready for use.

KEOMA

The Keoma-Kathryn school fair will be held on Friday, Sept. 3rd at Keoma. Since the last school fair there has been three new schoolmen which will make the competition keener. We understand that the Keoma Community Ham committee have kindly donated the use of their fine new hall for this occasion, and the exhibits should therefore be shown to much advantage. Lunch will be sold, the proceeds going to the School Fair funds. Everybody remember Friday the 3rd.

Cutting is almost over, and everyone looking forward to the threshing time being over much earlier than last year. We have several new threshing outfits in the district.

The U.F.W.A. met at the home of Mrs. F. Brown last Wednesday, August 25th. After the business meeting a dainty lunch was served. It was a very successful meeting, most of the members being present. The next meeting will be at Mrs. W. Rintont's on Sept. 8th.

STANDARD

Fifteen members of the Women's Institute were present at a happy little gathering on Friday afternoon August 26th, when they met to wish Mrs. Gerrit many happy returns of the day on the occasion of her seventy-third birthday. During the afternoon Mrs. Gerrit was pleasantly surprised by the ladies presenting her with a beautiful Boston fern. Later refreshments were served and when leaving the Women's Institute expressed the wish that they might have the opportunity of spending many more birthdays with Mrs. Gerrit.

The Misses Doris and Trisxie Day of Calgary spent a few days in town last week, renewing old acquaintances. They were guests at the home of Mr. and Mrs. F. Messenger.

Miss Martha Webb left on Thursday for Dixon, Calif. going by way of Spokane and Portland. Martha will spend the winter with her sister, Mrs. John Dawson and attend High School in Dixon. Wednesday evening a number of Martha's young friends called to wish her good luck and to say Au revoir.

The first carload of new wheat was shipped from Standard on August 27th. It was threshed on the C. B. Ruchwald farm and loaded from the National elevator. Threshing will be completed during the first week in September in this district.

Mr. L. C. Peterson is making extensive repairs to his garage, and when completed he will be in a much better position to serve the public.

CHEADLE

Mrs. Bob Wade and Bettie return on Sunday after a 2 month's visit in Ontario.

Billy and Stanley Craig have left for Calgary to attend high school.

Misses Mary and Florence Craig have returned home from a holiday spent in the south.

Jimmy Haddley is leaving this week for his holidays at Montreal, Ottawa and Toronto.

Outstanding before---now

FOR SALE BY STRATHMORE HOTEL

Mrs. C. Cowell and Mrs. Roy Miner have arrived in Vancouver after their auto trip and will remain there for awhile.

Miss Vera Lawson of Calgary arrived Tuesday to take up her duties at the Shrine of Science which has been all dolled up with new paint, new desks and floors which give it a snappy appearance.

A lot of fields of wheat in this district that looked like big crops are not looking up as expected and the yields will be somewhat less than they looked before cutting. Cutting of wheat will soon be completed but the oat crop is going to be late.

The news item of last week's news of the roadways into the district being gravelled by the (2 never works) has caused quite a lot of discussion. There are good roads in the elevators, and if the builders of the famous roads in Canada would like to get some lessons the two above mentioned will give them at any time. The reverse please take notice and fetch a snort with you.

SCHOOL COLUMN

Complete results of the High School examinations held last June have recently been received from the Department of Education. Pupils from the Strathmore High School attempted 211 units of these 154 units were passed. This is 73 per cent.

A most gratifying feature of the results is that the grade XII were 100 per cent. successful. Mr. White and the three candidates are to be heartily congratulated. The names of these pupils are as follows—Dean Tweedie, Esther Stockton, and Maude Marcum.

The names of those passing five or more units of the 21 units necessary for Junior Matriculation or Normal Entrance are as follows: The number after the name indicates the number of units in which a pupil was successful.

Grade IX
Iva Schultz, 5; Edith Hirtle, 5; Nancy Steinhilber, 7; Weldon Harrison, 8; John Barrett, 8;

Grade X
William Corbett, 7; Dorothy James, 8; James McDonald, 6;

Grade XI
Ida Frederick, 8; Florence Garrett, 5; Peggy Eves, 5;

Grade XII
Harold Horrocks, 5; Tom Chamberlain, 6; Gladys Stephenson, 5; May Taylor, 8; Mildred Marcum, 5;

The high average obtained were by John Garrett, 74 and Gladys Stephenson, 71.

On Saturday, 4th September there will be a meeting of the School Fair Association at 2 p.m. in the Strathmore School. All teachers of the competing schools are urgently requested to be present and to bring a number of the School Board or other ratepayer with them. All others in town and country who are interested in the Fair are cordially invited to be present. This will probably be the last meeting before the Fair and there is much important business to be transacted.

OF ANCIENT FAMILY
Two colored men were standing on the corner discussing family trees.
"Yes, sir," said the first, "I can trace my relations back to a family tree."

"That's 'em back to a family tree, huh?" said the second.
"Now, man, trace 'em back to me!"
"Well, dey ain't but two kinds of things dat live in trees, birds and monkeys, and yo sho' ain't got no feathers on yo'."

TO OUR READERS
The Standard will be glad to have the names of visitors in town and accounts of various social events for publication. Such communications should be signed and the address of the sender given. Readers in the surrounding districts are especially invited to send us news. We want to cover the Standard Valley. Make the Standard and Your Home Paper.

The Nation's Business

TORONTO.—The Financial Post says, "As another election campaign enlarges all its promise of an in decisive finish, the failure of political leaders to meet outstanding issues is more marked. Where one of them does offer a definite policy on a matter of national interest, the reaction is so strong as to arouse curiosity as to why so much effort is expended on unimportant subjects."

Mr. Job's definite promise of further tax reductions if he is given another budget to make was the sort of political pronouncement the public has been waiting for. It was emphasized by the comparative silence of King and Meighen on tax reduction. These leaders are, in fact, promoting increased expenditure, on hotels, roads, etc., and decline any assurance of tax reduction.

The old-time theory that the way to win votes is to promise a distal of public funds is still the main and fatal obsession of most of our statesmen and near-statesmen, who fail to recognize how long the public is to hear, another story—that of lower taxes.

The Manitoba Free Press has been outlining what it considers a common western programme, "obviously an attempt to speak the voice of the West on national issues at the moment, outlining a policy that would have a more or less universal appeal on the prairies and that could be supported by Progressives, Farmers, Liberals and Labor. The programme undoubtedly has in mind uniting these groups against what the Free Press is inclined to think is their common and natural opposition, the Conservative party and its platform."

The Free Press has not covered all the subjects touching the interests of the West but it is clear, incisive and definite insofar as it has attempted to go.

purely for revenue purposes. But as this would not be to the advantage of the whole country they are ready to maintain the present tariff with occasional modifications when required, such as in the case of farm implements and automobiles. If the manufacturers would accept the present tariff there would be tariff stability at once, argues the Free Press.

Completion of the Hudson Bay Railway, with the necessary accompanying aids to navigation, and at the earliest possible date, is, of course, indicated.

Conservative hostility to the project is emphasized as is the need for uniting Western Progressives, Western Liberals and U.F.A. interests to save the project for "the West's own route to the sea."

With "hands off the people's railways" a campaign slogan the Liberals and Progressives have already brought the Canadian National Railways into the election campaign. It is being made to indicate that a Conservative government would sell or dismember the Canadian National Railways and, in support of this view, Mr. Patenaude's speeches in the last election are being quoted.

He then suggested that the railways should be sold to relieve the pressing burden upon the taxpayers.

Mr. Meighen has fairly effectively disposed of the idea that he has in mind any such policy regarding the railways and has gone on to Mr. Henry Thornton a letter that clears him of any charge of undue tinkering with the operation of the C. N. E. R.

Mr. Thornton, with tactful firmness, made it clear in his statement that if he said went for the King government.

The Canadian National Railways are, however, less a subject for political discussion than previously. This is because their improved earnings have somewhat relieved public apprehension regarding their future. No party or leader is suggesting any tinkering in this campaign more definite than a maintenance of the status quo government ownership under Thornton.

There is never any lack of free trade sentiment in the House of Commons. There are always a few lengthy arguments in favor of that policy during each session of Parliament. But it is worthy of note that there has been little free trade discussion on any political platform during the current election campaign.

Even in the West, the leaders of the Liberal party have declined to make trade or anything approaching it a talking point although they have done so in prior elections.

In 1925, in the Saskatchewan legislature, Hon. Charles Gillingham backed a resolution favoring all round reduction in the customs tariff, a gradual tendency towards free trade between Great Britain and Canada; reciprocity with the United States and free entry for a long list of goods, machinery and raw materials. In his Regina nomination speech the other day, he attacked high protection but did not definitely come out in favor of lowered protection. He contented himself with saying, "My idea is that a tariff high enough to make an inefficient industry a proper industry is bad policy."

In eastern industrial centres, he favored "a practicable tariff which would benefit the majority of the people and to be administered by the tariff board. If Saskatchewan was all of Canada it might be advisable to have free trade but Saskatchewan is not all of Canada and neither, may I say, is Ontario," said Mr. Dunning.

CANADIAN CROP LIKELY

TWENTY-FIVE PER CENT LESS

The Financial Post reports that the business has followed with some disappointment the gradual reversal of the crop situation from the early reports predicting a large yield here and a smaller output elsewhere, to current indications of a 25 per cent drop in the Canadian yield and a big increase in the prospective yield elsewhere. A month ago crop observers anticipated a smaller crop than last year's in the United States, and higher prices were anticipated for a large Canadian output. Meanwhile, the outlook in the United States for example, has improved to such an extent that the estimate is raised to 175,000,000 bushels, to \$29,201,500, while the Canadian prospective yield has declined to the extent indicated. Last year's wheat crop in Canada sold for about \$180,000,000, the average price per bushel to the farmer being \$1.12. This places Canada in a much less favorable position than last year, although the situation is bettered somewhat by the fact that the wheat production of fifteen foreign countries of the Northern hemisphere totals 1,455,917,000 bushels against 1,524,411,000 bushels last year. The current price of around \$1.50 for No. 1 Northern Hard, the wheat of average quality, is \$1.67 for August 6, last year, and there is little in the outlook for a present level. It is only possible to estimate that the value of the Canadian crop will show a material reduction from that of last year.

Cutting both of wheat and of oats is now general in almost all parts of the West. Alberta has suffered less than Saskatchewan from the drought and it is anticipated that a good average crop will be reaped. On the other hand it will be impossible to make any definite estimate of the damage done until the grain has passed through the separators and the actual shrinkage becomes known in the yields obtained. The grain that is devoted to have stood the strain well in most parts of the province, especially on summerfallow and breaking, some seedling report exceptionally good stands of grain. This is true in the Calgary area and also in the irrigation belt, so that there is reason for expecting a reasonable good yield in the province as a whole.

But, as we pointed out last week, of any party but politics that will forward Canada's economic march and it supports men who are serving Canada well.

Beautifying the "Garden Railway"

Upper—Kenos Station Garden. Lower left—Looking down on the Kenos Station Garden. Lower right—"Contest of Dillies", first C.P.R. engine to enter Winnipeg in her summer finery.

Living up to its title as the "Garden Railway", thousands of trees, shrubs and perennials were shipped out over the whole Canadian Pacific Railway system early in May this year. These included willows, poplars, lilacs, spruces, hollyhocks, geraniums, carnations, hydrangeas, and many others. The perennials include roses of the climber and rambling variety and of all shades of color, tiger lilies, gladioli, poppies, aquilegia, dianthus, Sweet William, pyrethrum, delphinium.

Every year, the floral committee of the C.P.R. has the stupendous task of supplying the needs, trees, shrubs and plants to thousands of stations from Saint John to Victoria. Bulbs are supplied and planted in the fall, rearing their jaunty heads with the melting of the snows in the spring.

The seeds are propagated under glass by experienced gardeners with a view to being transplanted when raised. In addition the committee sends out many thousands of seed packets to station agents and also for use in section foremen's gardens, bank houses and around shops. Enormous quantities of bedding stock are also provided and among these are geraniums, cannas, asters, pansies, salvia, petunias, overcast.

WHAT PEOPLE SAY
Getting out a newspaper or a
publication is no picnic. If we print
jokes, folks say we are silly—if we
don't they say we are too serious.
If we publish original matter they
say we lack variety—if we publish
things from other papers they say
we are too lazy to write. If we
don't go to church we are heathens
—if we go we are hypocrites. If we
stay in the office we ought to get
out walking for now—if we waste for
new we are not attending to busi-
ness at the office. If we wear old
clothes we are sloven—if we wear

Slats' Diary

Friday—Since ma was bent how
to drive the 2nd hand car she does
nearly all of the driving most gen-
erally allways. When Mrs. Gil-
len was sitting here the other
day how it made her feel to be
driving a car she was answered and
said driving did make her feel a
tall well all I get to say on the
subject is that about two 2nds of her
little family gets very nervous
when she is driving.

Saturday—Mose Hix was out in
the country today and saw a man
with his hat on the road. He said
that he can't walk and Mose of-
fered him his bicycle so he could
ride into town and see a doctor.
Sunday—I can't see for the sev-
enty 5 cents I sent yesterday morn-
ing a couple yds. with my lawn
mower. I spent 20 cents on mail
Milk and 20 cents for kitchen and
15 for peanuts and I can't remem-
ber nothing else except it was for
foolishness maybe but I wasn't out
with no girls. Envy how I had to
pass up the collection at Sunday
school.

Sunday—Ant Emmy's cousin did
this week from an operation. Ant
Emmy said they was sort of a shift
to leave me for a while but I was
redly said she would do without the
operation every ways but they went
on ahead and spent all of that
money.

Tuesday—Mrs. Helton (bruce) her
baby up here to see us tonight and
let her look at it and tattle and
Mrs. Helton said for me to let her
see it. No sure pa has not life ex-
perience and I got.

Wednesday—We all went swim-
ming to the water wooden leave me
go out very far. I said she should
leave me go out very far as she
said. No sure pa has not life ex-
perience and I got.

Thursday—I got to visit a tack-
ery where my male cousin was
I was telling Aggie about it and I
said it was so noisy I couldn't hear
myself think, and she said well I
guess you didn't miss much did
you?

Friday—Mrs. Helton (bruce) her
baby up here to see us tonight and
let her look at it and tattle and
Mrs. Helton said for me to let her
see it. No sure pa has not life ex-
perience and I got.

and Chetivale on Saturday night.
One Good Year tire and tube on
Canadian rim. Finder please return
to Arnold Motors, Strathmore.

CARD OF THANKS

The Sisters of the Lacombe Home
wish to express their sincere grati-
tude to the citizens of Strathmore
for the kindness and generosity
shown to them during their short
stay in the town.

The uncertainty of the weather
having rendered the touring of the
country impossible, they will return
in about one month to make the tour
of the country.

The teacher was trying to convey
an idea of devotion to the members
of her class. "Now suppose," she
said, "a man walking along the river
suddenly fell in. He could not swim
and would be in danger of drowning.
Picture the scene—the man's sudden
fall, the cry for help, his wife knows
his peril and hearing his summons
rushes to the bank. Now, who can
tell me why she does?"

"Bright Light," "Why, to draw the
insurance money."
